Kanban Board Evidence

Board tool: [fill in: Trello / Google Docs table / other]. Columns: Backlog, To Do, In Progress, Review, Done. Work-in-progress limit: 2 cards (solo project, one person on the board).

Honest note on how this board was made: I did not keep a board during the first week. I rebuilt it on 2026-10-19 from my journal, QA notes and the build log, then used it to finish the last day. Dates before 2026-10-18 are approximate. Dates from 2026-10-18 on come from the journal and QA notes.

A PDF copy of this file is saved beside it as `KANBAN_BOARD.pdf`, and screenshots of the board are saved in this folder (for example `kanban-1.png`).

One card to walk through in the video (Q9)

Field	Entry
Card	Deck counter updates live as cards are added and removed
Created in Backlog	2026-10-18 (part of the Deck page build)
Moved to To Do / In Progress	In Progress 2026-10-19
Blocker, if any, and how you handled it	The counter was stuck at "0 / 7" however many cards were ticked. Cause: a stray `counter-reset` on the counter element reset the count before it was shown. I removed that line, kept `counter-increment` on the checked boxes, and `counter(picked)` in `::after`. Logged as defect 7 in `QA_NOTES.md`.
Moved to Review / Done	Review 2026-10-19 (tested 0 to 9 cards and back to 0 at 360px and 1280px), Done 2026-10-19

Board snapshot (end of 2026-10-19)

Backlog	To Do	In Progress (limit 2)	Review	Done
Test in real Firefox and Safari	Upload to CODD and check live pages	Record walkthrough video		All other cards below
W3C validators and screen-reader pass	Push to GitHub with commits	Fill links.txt		
Refactor deck builder: `input:checked + label` instead of position pairing (Q12.5 plan)				
Fourth champion (one new theme class)				
More rounds per run (each round triples the pages)				
Shared header and footer instead of copied markup				

Cards for this project

Card	Phase	Created	Started	Done	Notes
Pick track, extension and bonus	Plan	2026-10-12	2026-10-12	2026-10-12	Track D, Strategy Table Pack, bonus 6
Test what HTML and CSS can do versus JavaScript	Research	2026-10-12	2026-10-12	2026-10-17	First week of exploring CSS-only state, `:checked`, `:target`, animation, and a JavaScript prototype to compare; decided the graded site stays CSS-only
Write the 42-card list and rules	Plan	2026-10-13	2026-10-14	2026-10-16	Three pools of 14, post-mortem effects
Build the card component and flip	Build	2026-10-14	2026-10-15	2026-10-17	Card art in CSS gradients, 3D flip on hover and focus
Proposal and 8 wireframes	Plan	2026-10-15	2026-10-16	2026-10-17	Still shows the original battler design
Page skeletons, header, mobile menu, footer	Build	2026-10-17	2026-10-18	2026-10-18	Pure CSS menu with a hidden checkbox
Design tokens and stylesheets (base to animations)	Build	2026-10-17	2026-10-18	2026-10-18	Seven stylesheets, fixed link order
Deck page: 42-card library and pool tabs	Build	2026-10-18	2026-10-18	2026-10-18	Radio tabs with `:has()`
Deck counter updates live as cards are added and removed	Build	2026-10-18	2026-10-19	2026-10-19	Q9 card. Fixed the stuck "0 / 7"
Strategy Table and dice animation	Build	2026-10-18	2026-10-18	2026-10-18	`@property` count-up, graveyard timing
Model comparison cards (bonus 6)	Build	2026-10-18	2026-10-18	2026-10-18	Fixed sample numbers, labelled as such
QA pass and first six defect fixes	QA	2026-10-18	2026-10-18	2026-10-18	Rules overflow, upside-down dice, contrast, and others
Scope change: battler to score runs	Build	2026-10-19	2026-10-19	2026-10-19	Removed opponent effects, kept post-mortems, 4 rounds
Play pages (3 champions, 121 views each)	Build	2026-10-19	2026-10-19	2026-10-19	Pre-computed runs linked with `:target`
Lobby overflow fix at 360px and QA of all views	QA	2026-10-19	2026-10-19	2026-10-19	Logged in QA notes
README, journal, QA notes	Docs	2026-10-18	2026-10-18	2026-10-19	Includes AI disclosure
Walkthrough script	Presentation	2026-10-18	2026-10-18	2026-10-19	Rewritten after the scope change
Upload to CODD and GitHub	Delivery	2026-10-19			To Do
Record walkthrough video	Presentation	2026-10-19	2026-10-19		In Progress
